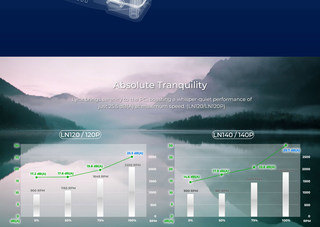
The silent Modular Fan

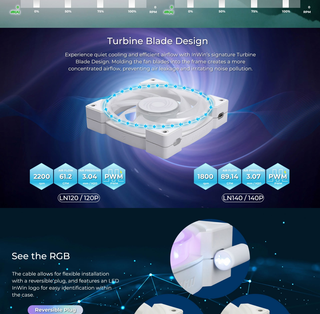
Taiwan Patent: M666622

Go cable free with Lynx! Say goodbye to cable clutter. In-Win presents the Lynx series modular cooling fan. Crafted for an effortless experience, it only requires connecting to the motherboard. Simplify your PC setup!

Linkable Type-C Fans

The simplified Lynx modular, linkable case fans connect via Type-C side-by-side linking. It's that easy.





Passed Strict Testing

Lynx's acoustic ingenuity is achieved through optimizing blade angles for ideal noise reduction, demonstrating as In-Win's quietest case fan.

*1 LN120 | LN120P: 28 mm thick, LN140 | LN140P: 25 mm thick

Absolute Tranquility

Experience cooling with the ultra-quiet performance of just 22.6 dBA at a minimum speed. (LN120 | LN120P)

Turbine Blade Design

Experience quiet cooling and efficient airflow with In-Win's signature Turbine Blade Design. Molding the fan blades "thin" to "thin" allows creates a more concentrated airflow, preventing air leakage and minimizing noise pollution.

The cable allows for flexible installation with a reversible plug, and features an LED In-Win logo for easy identification within the case.

Reversible Plug

Only 5V ARGB connectors are supported. Please do not connect 12V RGB connectors.
